## LEAD-FREE TRADITIONAL MULTI-TURN STRAIGHT CHROME SUPPLY STOPS

## T/S-582NL, T-582PNL, S-582ETNL, T/S-584NL and T-591PNL

Lead-free design is suitable for all no-lead potable water installations, in full compliance of all lead-free plumbing laws.
Compact,lead-free brass body is machined from a single piece of barstock, providing the highest level of durability and strength.

Thermoplastic stems (except sweat configurations) resist scale and debris build-up better than metallic stems, even in hard water conditions.

Each stop is individually packaged, preventing connection component loss and protecting the stop from contamination.
Available in seventeen configurations, including compression, PEX, sweat, extended-tube and FNPT inlet connections.

## Working Pressure, Non Shock (PSI)

Cold working pressure (CWP): 110 p.s.i.
Saturated steam (WSP): Not suitable for steam service

- Third-party tested and certified in compliance with U.S. Federal Public Law 111-380 (National lead-free plumbing law).
- Certified to NSF / ANSI 61-G
- End connections conform to: ANSI/ASME B1.20.1 (FNPT) ANSI/ASME B16.18 (CTS) ASTM F1807 (PEX barb)
- Manufactured in an ISO accredited facility.
