

MOTION SENSOR SWITCH, MANUAL ON/AUTO OFF, MAGNESIUM

ASVS12M4 | [adorne](#)

FEATURES & BENEFITS

USAGE

Perfect for anywhere you want to control turning lights on, but want them to turn off automatically, such as children's bedrooms.

The adorne Manual ON/Auto OFF Motion Sensor Switch provides combination control by allowing you to manually turn lights on when entering a room and automatically turning them off when you leave via motion-sensing technology. Use on its own to control a light from one location (single-pole operation), pair with a second switch or dimmer to control a single light source from two locations (three-way operation), or combine with a third switch or dimmer to control a single light source from three locations (four-way operation).

Pair with matching [Motion Sensor Dimmer Switch](#) or to create a uniform look throughout a room or your entire house.

This item is also available in [white](#).

GETTING STARTED

- Time to install: 15 minutes or less.
- Fits existing electrical box and does not require new wires for typical installation.
- Innovative snap-in system ensures easy installation.
- This item requires an adorne Wall Plate. [Shop now](#) to choose from dozens of finishes including a variety of luxurious metals, or order in your own custom finish.
