

- Solid pin design
- Color coded
- Brazed barrel
- Barrel allows for two crimps NPBRD
- Funnel wire entry
- Vinyl insulation VPBR
- Nylon insulation NPBR
- NPBRD
- Manufactured from high strength copper alloy
- Electro-tin plated
- UL Listed, 600 volts, 105° C
- Provides an easy and effective way to terminate stranded wire into European/metric-style terminal blocks
- Provide easy wire range identification
#18-22 AWG Red
#14-16 AWG Blue
#10-12 AWG Yellow
- Offers maximum conductivity
- Provides low contact resistance
- Smooth wire insertion into barrel
- Stronger crimp connection to prevent wire pull-out
- Ensures reliability for copper conductor
- Provides corrosion resistance and strain relief
- Increased heat and chemical resistant qualities for more demanding applications
- Provides strain relief, prevents exposure of conductor

<l>All wire sizes, unless noted otherwise, are American Wire Gauge (AWG)
Tested to UL 486A/B, UL File E6207</l>
