

Aviation Snips with Power-Fit™ Hand Grips: Offset AVs

★★★★★ [2 Reviews](#) | [Write a Review](#)

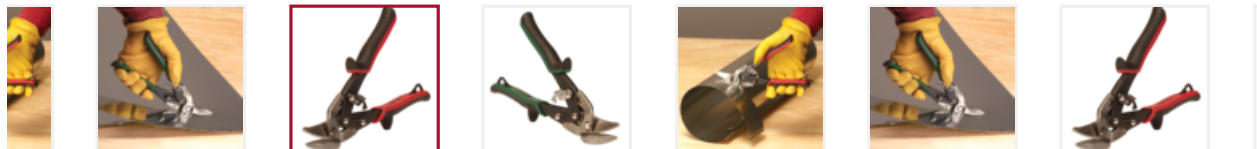

Get a better grip with Malco's Offset AV Aviation Snips!

Malco Offset AV Aviation Snips feature grooved non-slip POWER-FIT™ performance hand grips. These enhanced grips naturally distribute pressure evenly across the user's hand, resulting in a more natural feel with less fatigue and increased strength. Safety hand guards allow the user to cut quickly into sheet metal, while preventing the hand from slipping forward over the blades. A self-opening latch provides convenience for the user to quickly open the snips when ready. Made with only the best, the hardened forged steel jaws offer a strong long lasting cutting edge.

Available in left, right, combination, offset-left, and offset-right cutting models. [Click here to view the left, right, and combination cutting models.](https://www.malcoproducts.com/product/aviation-snips-avs/) (<https://www.malcoproducts.com/product/aviation-snips-avs/>).

Malco AV Aviation Snips. Precision snips designed for today's Professional Tradesman.

POWER-FIT™ PERFORMANCE HAND GRIPS

FEATURES

- POWER-FIT™ Performance Hand Grips naturally distribute pressure evenly across your hand resulting in a more natural feel and less fatigue.
- Ergonomic hand guards allow users to efficiently cut into material faster.
- Improved hand guards prevent hands from slipping forward over the blades.
- Non-slip grips with grooves provide improved grip, even in dirty conditions.
- Self-opening latch for quick one-hand operation.
- Hardened forged steel jaws provide long lasting high-strength cutting edges.
