

TOP FEATURES OF THE EU1P

- **Matched System**

Our evaporator coils are specially designed and sized to match Armstrong Air heating and cooling products. When you add a matching coil, you get a system that runs at peak performance while maximizing efficiency.

- **Microban® Protection**

Drain pans are infused with an antibacterial agent that destabilizes the membrane of microorganism cells, disrupting the cellular function of odor-causing mold and bacteria so that they can no longer grow or reproduce.

- **MHT™ Technology**

Armstrong Air coils feature rifled tubing to enhance refrigerant flow, while lanced coil fins increase surface contact between metal and air for maximum heat transfer and efficiency.

- **Warranty**

Armstrong Air's commitment to a better product is backed by a 10-Year Limited Warranty on parts.
