A Filter Base Like No Other

Designed with the homeowner in mind, our team in Research and Development has developed a new filter base to stand out from all the rest.

With added features including a leaf spring design, neoprene gasket on the base and finger notches, this product provides convenience and ease to the contractor and ultimately the homeowner.

Features

- Spring hinges
- Magnetic latch
- Pre-drilled holes in flange for ease of installation
- Innovative leaf spring design that eliminates the need for filter slides and can accommodate a range of filter sizes
- Finger notches allow for quick and easy filter changes
- Heavy gauge frame construction
- Gasketed door – neoprene
- Gasketed bottom – neoprene

New and Improved Features

- Knob has been removed and replaced with an integrated handle, creating increased strength in the door seal
- Finger notches moved to make it easier to remove or change out the filter, also allowing for notches on all sizes and models
