# MASSIMO

Collection by *ELCOMA*

This Ultimate Collection of Grab Bars is made in the USA. Grab bars have been carefully designed and crafted by an Italian artisan using today's most popular textures and finishes. There are two different flange covers available allowing you to choose between a traditional round flange and a more contemporary square flange.

The Collection is 100% hand made using only recycled and natural materials.

Bars are currently available in 18", 24" and 36" lengths. There are six available textures/grips and thirteen finishes, five of which are polished and eight brushed.

The MASSIMO Collection is the Grab Bar look of the future.

\*Due to the handmade nature of the Collection please allow 3-4 weeks for delivery.
