

GANGABLE BOX KITS

RECTANGULAR NON-METALLIC BOX • METAL COVER KITS

Arlington's UL Listed gangable concrete floor boxes give installers the economical, convenient way to add receptacles in new concrete pours in commercial installations.

Build the box you need! Use the single gang box 'as shipped' or lock them together to build a two- or three-gang box. You decide. Then buy the cover kit that fits.

- Gasketed brass or nickel-plated brass frame mounts to the box with screws we supply.
 - Gasketed metal covers then attach to the frame.
- You can install the covers with the hinge on either side**
- Prevents water intrusion so devices are protected when not in use.

SINGLE GANG FLOOR BOX KIT

CATALOG NUMBER	UPC/DCI/NAED MFG. #018997	DESCRIPTION	COLOR/MATERIAL	UNIT PKG	STD PKG
----------------	---------------------------	-------------	----------------	----------	---------

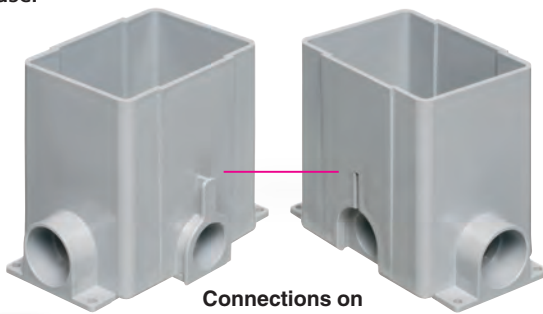

FLBC8500	22950	Single gang box kit Individual boxes lock together to form two-gang and three-gang boxes	Non-metallic Gray	1	5
----------	-------	--	----------------------	---	---

Includes concrete box, (2) 1-1/4" plugs, mud cover.

FLBC8500

Openings for OPTIONAL 1/4-20 screws that position, level and raise box so concrete flows underneath.

HERE'S HOW IT WORKS

Connections on opposing sides lock boxes securely together

Combine two FLBC8500 boxes for a two-gang box

Need a three-gang box instead? Add another FLBC8500!

Modular Interlocking Boxes!

After building the desired box, attach cover frame to boxes with screws provided.

Install desired devices (screws provided).

Install cover, insert gaskets in both gangs, add the covers.
