

Power Open/Power Closed Zoned Comfort Control Dampers

Aprilaire zone dampers will save you money, reduce installation time and provide trouble-free performance.

- + **Longevity:** motor shuts off at end of travel preventing stalling which can lead to reduced motor life
- + **Low VA-Requirement:** more dampers can be controlled in a single zone without the need for power assistance or additional relays
- + **Improved Design:** seal attached to blade improves airflow - provides low pressure drop

Reliable Zoning Solutions for Simpler, More Profitable Installs

WORLD-CLASS QUALITY

- + Rigorous cycle testing assures years of reliable performance
- + Packaging and product, designed for rough handling, exceeds shipping requirements of the ISTA 1A drop test
- + Functional testing performed at extreme environmental conditions of 0°F/90% RH and 150°F/15% RH
- + Five-year warranty
