ENERGY INNOVATIONS

ONE-TOUCH AWAY MODE

Overrides your regular programming schedule when you're away and automatically turns down heating or cooling to save energy.

AUTOMATIC CHANGEOVER

Automatically decides between heating and cooling depending on your home's indoor temperature.

ENERGY REPORTS

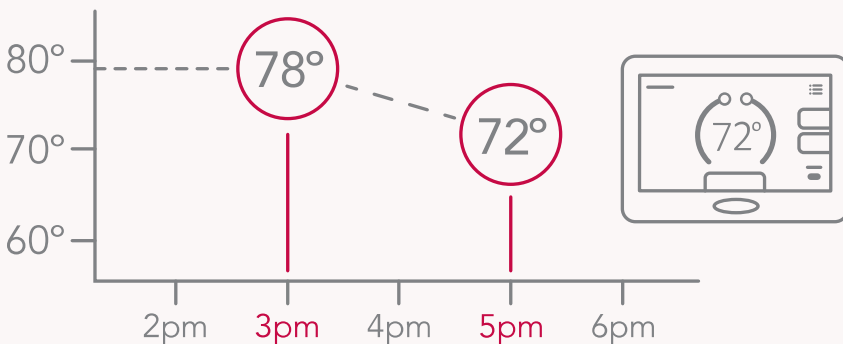

Lets you compare your monthly heating and cooling usage, so you can adjust your settings to reduce energy consumption and utility bills.

CUSTOM REMINDERS

ComfortSense 7500 and 5500 thermostats offer customizable filter, service and part replacement reminders.

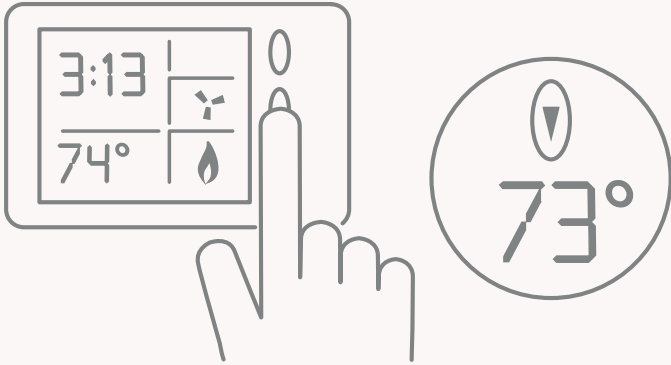

ADVANCED CONTROL

Like most thermostats, the ComfortSense 7500 and 5500 give you the option of programming a setback temperature that allows you to save energy when you're gone for the day. A key difference is that the 7500 and 5500 step up performance before you step through the door upon your return home.

CONVENIENCE

The ComfortSense® 3000 thermostat gives you the ability to customize one temperature schedule for weekdays, and another for weekends—helping you save energy in a way that makes sense with your lifestyle.

COMFORT INNOVATIONS

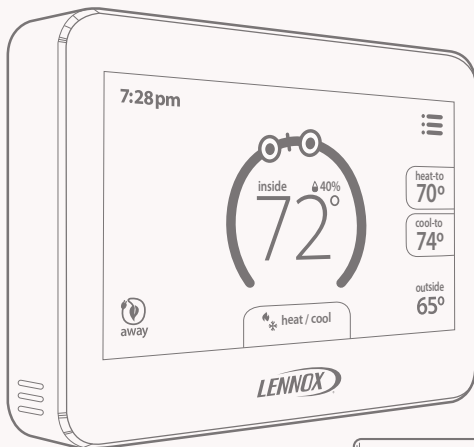

LARGE RUBBER BUTTONS

Large rubber buttons make temperature control and system programming easy to achieve.

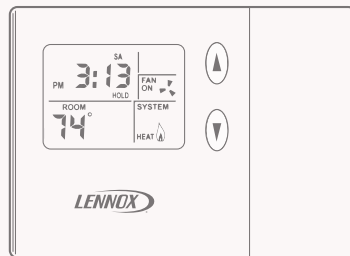

FILTER REPLACEMENT REMINDER

Filter-change indicator reminds you to change your filter, helping to keep your home's air clean and comfortable.

BUILT-IN FLEXIBILITY

ComfortSense 7500 and 5500 thermostats

ComfortSense 3000 thermostat

Designed to be adaptable, ComfortSense thermostats are compatible with Lennox® brand non-iComfort®-enabled equipment and most other brands of heating and cooling equipment, too.
