

GAS PRESSURE TEST GAUGES

MODEL BRGT

FEATURES:

The Model BRGT Series from Blue Ribbon Corporation is a combined utility gas pressure test gauge and valve body. Before gas is run into the system, it is charged with air. The gauge then indicates whether or not there is a leak present within the line. The valve body serves strictly as a bleed port. Series units support the reliable, cost-effective testing of gas line pressures within both commercial and residential applications.

Model BRGT

SPECIFICATIONS:

- Dial Size: 2"
- Measurement Range: 0-5 to 0-160 PSI (1/10# increments - only for 0-15)
