

K9-306 FlexShaft™ Machine Clears 3" to 6" (75 to 150 mm) Pipe Up to 125' (38 m)

Purpose-built for the professional, the NEW RIDGID® FlexShaft K9-306 quickly clears grease buildup, roots and heavy scale using 125' of 3/8" cable for 3" - 6" pipes with one step of the foot switch. It features a professional 1.5 HP internal universal motor for maximum power and longevity, a fully enclosed drum to minimize set-up and clean up time, and a telescoping handle with multiple wheels and grab points to make loading, unloading, transporting, and storage easy.

- Wall-To-Wall Clean: Chain knockers expand for full pipe cleaning
- Simultaneous Camera Use: FlexShaft machines let you keep your camera in-pipe while you work
- Increase Productivity: Faster setup and cleanup, quick cleaning, and easy to transport for additional time savings
- Versatile Frame: Utilize 2 or all 4 wheels for ease of maneuverability and transport. Telescoping handle allows for a compact footprint in tight job site locations, while creating a low profile for storage

RIDGID® FlexShaft machines utilize specialized chain knockers attached to a flexible cable that are spun at high speeds. Since the cable spins inside a durable nylon sheath that is housed within a fully contained drum, there is less jobsite mess.

SPECIFICATIONS

• Model	K9-306
Drain Capacity (Nom.)	3" to 6" (80 – 152 mm)
· Cable Diameter (without Sheath)	³ /8" (10 mm)
· Cable Assy. Diameter (with Sheath)	⁵ / ₈ " (15,8 mm)
Cable Assembly Length	125' (38 m)
Rotational Speed	2000 RPM
Dimension	26 0" v 20 4" v 20 6" (010

 Dimensionx 518.2 mm x 828 mm) Handle Down 36.2" x 20.4" x 44.8" (919.5 mm x 518.2 mm x 1137.92 mm) Handle Up

• Operating temperature......20°F - 140°F (-6°C - 60°C)
