

PVC Coated Beam Clamps

Calbond PVC coated beam clamps are used to securely support conduit runs by attaching them to beams, angles, trusses and other structural members. They are available in four different styles:

Right Angle: attaches the conduit run at a 90 degree angle to a beam or structural member

Parallel: attaches the conduit run parallel to a beam or structural member

Edge: attaches the conduit run at a 90 degree angle perpendicular to a beam or structural member

Features:

- Exterior PVC coating thickness is a minimum 0.040"
- Right angle clamps are supplied with an adjusted size U-bolt and encapsulated nuts
- Beam clamps are specifically sized to fit Calbond PVC coated conduit
- Parallel clamps available in sizes 1/2" to 4"
- Edge clamps available in sizes 1/2" to 1"
- Right angle clamps available in sizes 1/2" to 6"

PVC COATED RIGHT ANGLE CLAMPS

Item Number	Trade Size	Weight Per 100 (lbs)
PV0500RAC50HD	1/2"	49
