QCRO Series

Quick Change Reverse Osmosis

Cartridges pivot out for easy removal!

The QCRO Series Reverse Osmosis Drinking Water System reduces harmful contaminants and turns common tap water into the fresh, quality water that nature intended us to drink. A 5-stage system filters water at the molecular level. Drawn water passes through a final carbon filter to remove any unwanted tastes or odors. The result is simply healthier, better tasting water.

- **Environmentally sound water treatment.**
- **Cost effective:** the daily cost of bottled water will no longer be a concern.
- **Convenient:** fresh, clean water ready at your tap --no more handling of jugs.
