XIR PAR Series

Halco LIGHTING TECHNOLOGIES

The XIR™ PAR Series lamps use a Halogen Infrared capsule to deliver the same light quality as Halogen lamps, with the added benefit of energy savings. The infrared capsule in XIR PAR lamps recycles infrared heat, allowing the lamp to burn cooler and longer than standard Halogen PAR lamps, while using less energy and without compromising light output or quality.

Specifications:

- EISA Compliant
- 3,500 hour life
- IR capsule for maximum efficiency
- Spiral lens and reflector design
- Nickel plated brass base
- Crisp, white light
- Dimmable
- Precision beam control
- Up-to 30% higher lumens per watt than standard Halogen
- Energy efficient alternative to 75W standard Halogen
- Generates less heat than standard Halogen

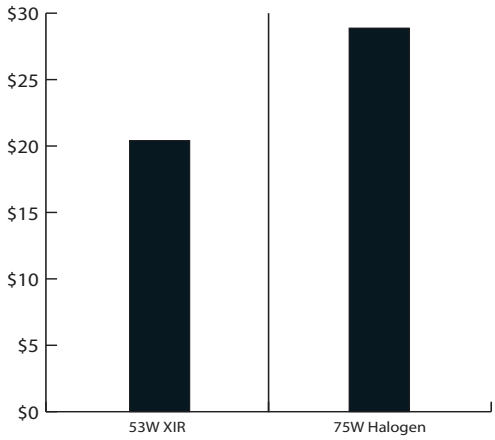
Ⓔ Means this bulb meets the Federal minimum efficiency standards.

This product contains an internal halogen-based capsule that may continue to operate and emit UV if the outer glass envelope is cracked or broken. The capsule is under pressure, operates at high temperatures, and could unexpectedly shatter, which may result in the discharge of extremely hot glass particles into the fixture and/or surrounding area, creating a risk of personal injury or fire. Adhering to the operating instructions will greatly reduce these risks.

Energy Savings Comparison



Watts	Energy Costs	Energy Savings
53W XIR	$20.41	$8.47
75W Halogen	$28.88	

¥ Energy costs based on $0.11 kWh over 3,500 hour life.
