RAB

The couple everyone's talking about.
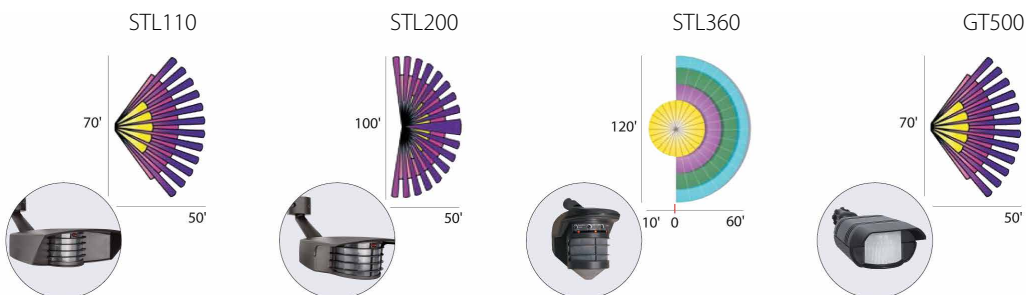

Sensors + Field-Adjustable PARs

RAB sensors meet LED lamps.

Take a few of our industry-leading motion sensors and combine them with field-adjustable PAR lamps, and you get the best security lighting bundle out there! These new kits are available with four of our most popular STEALTH and GOTCHA sensors, with various hood designs and colors for maximized versatility.

Mix and match.

These LED bundles are offered with the STL110, STL200, STL360, or GT500, each with a different detection pattern, so you can choose whatever coverage best suits your application.

STL110	STL200	STL360	GT500
70' / 50'	100' / 50'	120' / 10' 0 60'	70' / 50'

Don't forget the field-adjustable PARs!

All kits come with two LED PAR38 lamps that feature three selectable CCTs (3000/4000/5000K) and 90 CRI output. These replace up to 150W halogen, all while saving up to 85% on energy costs.

Ordering Matrix

GT

Family	Detection	Flood Type	Finish	Lamps/Wattages/CCT
GT	500	R		/L

500	110° View	**R**	120V R90 Flood	**Blank**	Black	**/L**	2-Edison Base PAR38 Lamps, 38W,
				W	White		Selectable CCT: 3000/4000/5000K

STL

Family	Detection	Flood Type	Finish	Lamps/Wattages/CCT
STL				/L

110	110° View	**R***	No Hoods	**Blank**	Bronze	**/L**	2-Edison Base PAR38 Lamps, 38W,
200	200° View	**H**	Bullet Hoods	**W**	White		Selectable CCT: 3000/4000/5000K
360	180° & 360° down	**HB**	Bell Hoods				

R is only available with the STL110.
